## PLEASE HELP SAVE LITTLE SOFIA!

**Name:** Sofia Sitkina  
**Date of birth:** Sept. 24, 2008  
**Place of birth:** Kyiv, Ukraine  
**Citizenship:** Ukrainian  
**Diagnosis:** ACUTE MYELOID LEUKEMIA (FAB M5B)

Sofia Sitkina, daughter of Vladimir Sitkin and Natalia Sitkina, was diagnosed with acute myeloid leukemia in April 2012. She has been given several courses of chemotherapy at medical clinics in Kyiv since her diagnosis. Regrettably the last medical tests showed resistance to chemotherapy.  
Sofia currently awaits another chemo block. After this next treatment, the only long-term solution to restore Sofia to health is an allogeneic bone marrow transplant (bone marrow transplant from a non-relative donor), a medical procedure that is not available in Ukraine. Sofia's parents are average Ukrainian citizens and have already spent their savings on Sofia's medical treatment. The approximate cost of the follow-up treatment and bone marrow transplant operation is \$200,000.  
They ask for your prayers and financial help. Please pray for Sofia, Vladimir and Natalia

and donate what you are able to help Sofia obtain the necessary medical treatment required to restore this bright, energetic four-year-old girl to health. God bless! Please find bank account details for donations in EUR, USD and UAH below.
